7:00 pm - Turnback & Herd Holding Clinic (tentative)

Bring your horse and learn about the importance of good turnback and herd holding help. An excellent cutting run is dependent on a 5-member team working together. In addition to the cutter, there are two herd holders and two turnback riders who help to set up and create a good cut. We all rely on each other, so it can't be stressed enough the importance of learning the skill of herd holding and turnback. This clinic is at no expense to the NLVRHA member. Please join us for this educational opportunity.
